REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art fails to teach or fairly suggest a wafer protective sheet having a thickness of between 80-130 um comprising a large number of projected parts and recessed parts formed thereon wherein each part is positioned at intersections of lattice stripes, the parts disposed alternately to each other such that the sheet has a wavy cross section, the recessed parts on the rear surface match the projected parts on the front surface, the sheet having flat parts oriented parallel to and between the projected parts and recessed parts wherein the sheet has a bending resistance of 30-80mm in combination with all the other limitations in claim 1. The examiner is relying on the applicant's arguments filed March 11, 2009.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
